

DOCUMENT 1 — STATLINK SALES KIT

StatLink Overview

“StatLink is your analytics command center—giving coaches real-time player rankings and data insights so they can confidently evaluate, build, and optimize their team.”

- **Overview:** StatLink is our real-time player ranking system, designed to help coaches quickly evaluate and optimize their roster.
 - **Key Benefits:** Instant player comparisons, data-backed lineup decisions, and easy-to-use dashboards.
 - **Price:** \$1,200 per year.
 - **Next Steps:** If you’re ready, we’ll send an invoice and onboard you right away.
-

OUTREACH EMAIL

Subject: Your Player Evaluation & Decision Engine

Hi [First Name],

Most platforms give you *more data*—but not better decisions.

That’s the problem.

StatLink takes **Dr. Jon Nichols’** algorithm and turns the data you already have into clear, actionable player rankings—so your staff can evaluate, compare, and make decisions instantly.

StatLink is your analytics command center—giving coaches real-time player rankings and data insights so they can confidently evaluate, build, and optimize their team.

On a quick demo, you’ll see how teams are:

- Turning evaluations into instant rankings
- Identifying top players and gaps in seconds
- Tracking development trends without manual work

No spreadsheets. No guesswork. Just clarity.

If it's relevant, we'll send over the invoice and get you onboarded right away.

If you want a quick look beforehand:

Open to a quick 10-minute walkthrough this week?

— Scott

COLD CALL SCRIPT

Opening (pattern interrupt)

“Hey Coach, I’ll be quick—this is Scott with StatLink.

We help coaching staffs turn their player data into clear decisions and rankings instantly.”

Permission

“Do you have 30 seconds, and you can tell me if it’s relevant?”

Problem

“Most teams we talk to have plenty of data—but it’s spread across film, notes, and spreadsheets... so evaluations end up slow and inconsistent.”

Value (your real edge)

“StatLink takes your staff’s evaluations and runs them through Dr. Jon Nichols’ algorithm to generate instant player rankings and trends—so you know exactly who your best players are.”

Reposition (your tagline used correctly)

“It basically becomes your analytics command center—giving you real-time rankings so you can evaluate, build, and optimize your team.”

Close (stronger, assumes value)

“Worth a quick 10-minute look? If it’s relevant, we’ll just get you onboarded right after.”

SHORT DEMO SCRIPT (10 MINUTES MAX)

1. **Start with the coach’s challenge: “You’ve got a lot of data, but how do you quickly see which players will impact your lineup?”**
 2. **Show the dashboard: “Here’s how StatLink ranks your players based on key metrics you define.”**
 3. **Walk them through a scenario: “Let’s say you need to adjust your starting lineup; StatLink lets you compare players in seconds.”**
 4. **Close: “Imagine making roster decisions with this clarity before every game. Would this be useful to you?”**
-

FULL DEMO SCRIPT (10 MINUTES MAX)

1. Frame (30 sec)

“Most teams don’t struggle with data—they struggle with making fast, confident decisions.”

2. Evaluation (2 min)

Show:

- **Scorecards**
- **Custom metrics**
- **Data uploads**

Say:

“This is your staff’s evaluation process—structured. Everyone grades consistently, and it all lives in one place.”

3. Rankings (2 min)

Show:

- Player rankings
- Sorting / filtering

Say:

**“Now instead of guessing—you know exactly who your top players are.
This is your roster—ranked, instantly.”**

4. Depth Chart Builder (2–3 min) (NEW — KEY MOMENT)

Show:

- Custom depth chart builder
- Drag/drop or auto-ordering
- Rankings driving the structure

Say:

“This is where it becomes real for staffs.

Instead of debating or guessing—your depth chart is driven by your evaluations and rankings.

You can:

- Instantly build your depth chart
- Adjust based on situations
- Align your staff around one clear view

This turns your data into actual decisions.”

 **Pause here — let that land**

5. Trends (2 min)

Show:

- Player trends over time

Say:

“Now you’re not just making decisions—you’re tracking development.

You can see:

- **Who’s improving**
 - **Who’s dropping**
 - **And why”**
-

6. Close (1 min)

“If you had this before every decision—depth chart, travel roster, development—does that help?”

→ Pause

“If it does, next step is simple—we send the invoice and get you onboarded.”

 **PRICING**

\$1,200 per year (team license)

 **NEXT STEP (ALWAYS SAY THIS)**

“If this makes sense, we’ll send over the invoice and get you live right away.”

 **COMMON NON-BLOCKERS**

“We don’t have the budget for that.”

Say:

“Totally understand. We can roll this out in a way that fits your budget—our goal is to make sure budget doesn’t get in the way of improving your team.”

“We don’t have the staff or manpower for something like this.”

Say:

“Totally fair—that’s actually why teams use StatLink. It saves your staff time by organizing evaluations and rankings for you.”

Optional Add (if needed):

“Most teams just have a student, GA, or assistant help manage it—it’s very lightweight.”

DOCUMENT 2 — IMPACTCAP SALES KIT

ImpactCap Overview

“ImpactCap is a decision intelligence system that aggregates and synthesizes data across entire leagues—ranking athletes at scale so you can make smarter, faster roster decisions.”

- **Overview:** ImpactCap delivers league-wide athlete rankings, scraping data from multiple sources to help you spot talent and opportunities across entire leagues. ImpactCap gives your staff a complete view of the player market.
- Instead of manually tracking players or reacting late, ImpactCap turns data from across leagues into clear rankings, valuations, and decision-making tools—so your staff can identify opportunities early and act with confidence.
- **Key Benefits:** League-wide talent insights, top performer identification, and strategic roster building. Make faster recruiting and transfer portal decisions. Turn complex data into clear, actionable insights
- **Price:** \$1,200 per year.
- **Next Steps:** Once you’re ready, we’ll invoice you and begin onboarding immediately.

OUTREACH EMAIL

Subject: How are you valuing players right now? Re: Seeing the full player market

Hi [First Name],

Quick question - how is your staff valuing players right now?

Most teams we talk to don’t have a clear, consistent way to do it, so they end up reacting late, especially in the portal.

The real advantage comes from seeing the entire player market before everyone else does – with impact and fair market valuations.

ImpactCap is a decision intelligence system that aggregates and synthesizes data across entire leagues—turning it into clear player rankings, valuations, and comparisons so your staff can make faster, smarter roster decisions.

On a quick demo, you'll see how teams are:

- Identifying top players across leagues instantly
- Finding transfer portal opportunities early (Football & Basketball)
- Comparing players and valuations in seconds

And that's just the surface—ImpactCap also includes scouting reports, simulations, and optimization tools that turn those insights into real decisions.

No manual tracking. No scattered data. Just clarity at scale.

If you want a quick look beforehand:

👉 <https://impactcap.io>

If it's relevant, we'll send over the invoice and get you access right away.

Open to a quick 10-minute walkthrough this week?

— Scott

COLD CALL SCRIPT

Opening (pattern interrupt)

“Hey Coach, I'll be quick—this is Scott with ImpactCap.

We help teams see entire leagues—ranked—with fair market valuations—so they can build rosters and make better decisions.”

Permission

“Do you have 30 seconds, and you can tell me if it's relevant?”

Problem

“Most staffs don't have a clear way to source, organize, and value players in a data-driven way—so they end up reacting late. ”

Value

“ImpactCap gives you instant rankings, valuations, and comparisons across the entire market—at scale—so you can see options earlier and act faster.”

Reposition

“It basically becomes your view of the entire player market—so you’re not piecing things together across different tools.” Would it be helpful to see how teams are using this to find players faster?”

Close

“Worth a quick 10-minute look? If it’s relevant, we’ll just get you onboarded right after.”

DEMO SCRIPT (10 MINUTES MAX)

1. Frame (30 sec)

“You’re not just managing a roster—you’re competing in a market.”

2. League Rankings (2 min)

Show:

- Full rankings

Say:

“This is every player—ranked with fair market valuations.”

3. Filters (2 min)

Show:

- Position, team, etc.

Say:

“Find exactly what you need instantly.”

4. Player View (2 min)

Show:

- Player breakdown

Say:

“This replaces hours of manual scouting.”

5. Value (1 min)

“You’re making decisions faster—and earlier—than everyone else.”

6. Close

“Does this help your staff in recruiting or the portal?”

→ Pause

“We’ll send the invoice and get you access.”

PRICING

\$1,200 per year

NEXT STEP

“If you’re in, we’ll send the invoice and get you live immediately.”

DOCUMENT 3 — REVENUE PLAN & BENCHMARKS

 **GOAL: \$100,000**

If selling single product:

- **\$1,200/year**
- **83 customers**

If bundling (recommended):

- **\$2,400/year**
 - **42 customers**
-

TIMELINE OPTIONS

3 Months (Aggressive)

- **14 deals/month**
- **3–4 deals/week**

6 Months (Realistic)

- **7 deals/month**
- **2 deals/week**

12 Months (Slow)

- **3–4 deals/month**
-

WEEKLY ACTIVITY TARGETS (PER REP)

- **75–100 emails**
- **25–40 calls**
- **15–20 conversations**
- **8–10 demos**
- **2–4 closes**

CONVERSION TARGETS

- **Outreach → Conversation: 10–20%**
- **Conversation → Demo: 50%**
- **Demo → Close: 25–40%**

PIPELINE MATH

To close 10 deals/month:

- **40 demos**
- **80–100 conversations**
- **400–800 outreach attempts**

COMMON FAILURE POINTS

- **Not enough outreach volume**
- **Weak or inconsistent messaging**
- **No clear close (“we’ll send invoice”)**
- **No tracking metrics**

WHAT WINS

- **Sell speed of decision-making**
- **Keep demos under 10 minutes**
- **Always ask for the close**
- **Push bundle when possible**
- **Treat inbound like gold**
