

StatLink – Create a New Team (Quick Start)

This guide walks you through setting up your team and getting your first data into StatLink.

Estimated Time: 10 minutes

1. Create Your Account

- Go to: <https://statlink.io>
 - Click **Sign Up**
 - Select your role (Manager)
-

2. Create Your Team

- After logging in, click **Create Team**
- Enter:
 - Team Name
 - Sport
 - Team Logo
 - League (if applicable)
 - Division (if applicable)

Result: You now have a team workspace.

3. Add Your Roster

- Navigate to: **Home > Roster > Players**
- Click **Upload Roster**

Options:

- Upload via CSV

- Add players manually
- Share QR code

Tip: Start with 5–10 players to move quickly.

4. Add Your Staff

- Navigate to: **Home > Roster > Manager**
- Click **Invite Manager**
- Enter staff email addresses

Result: Your staff can now collect and review data.

5. Create Your First Scorecard

- Navigate to: **Data Entry > Create Custom Scorecard**
- Add 3–5 simple metrics

Result: This defines how your players will be evaluated.

6. Enter Your First Data

- Navigate to: **Data Entry > Enter Data**
- Select your scorecard
- Submit at least one evaluation

Result: Player rankings should now populate.

7. View Your Team Insights

- Navigate to the **Analysis Tab**
- Explore:
 - Player Rankings
 - Player Trends
 - Depth Chart

Result: You now have a working team dataset.

You're All Set

At this point, you have:

- Created a team
 - Added players
 - Invited staff
 - Entered data
 - Generated rankings
-
